## HOW TO USE THIS TIME TABLE

When do you want to be there? Look at the timetable under your destination and see which time is closest to the time you want to be there. Then look to the left and see what time you should take that bus at your boarding point.

Please don't smoke on the bus...

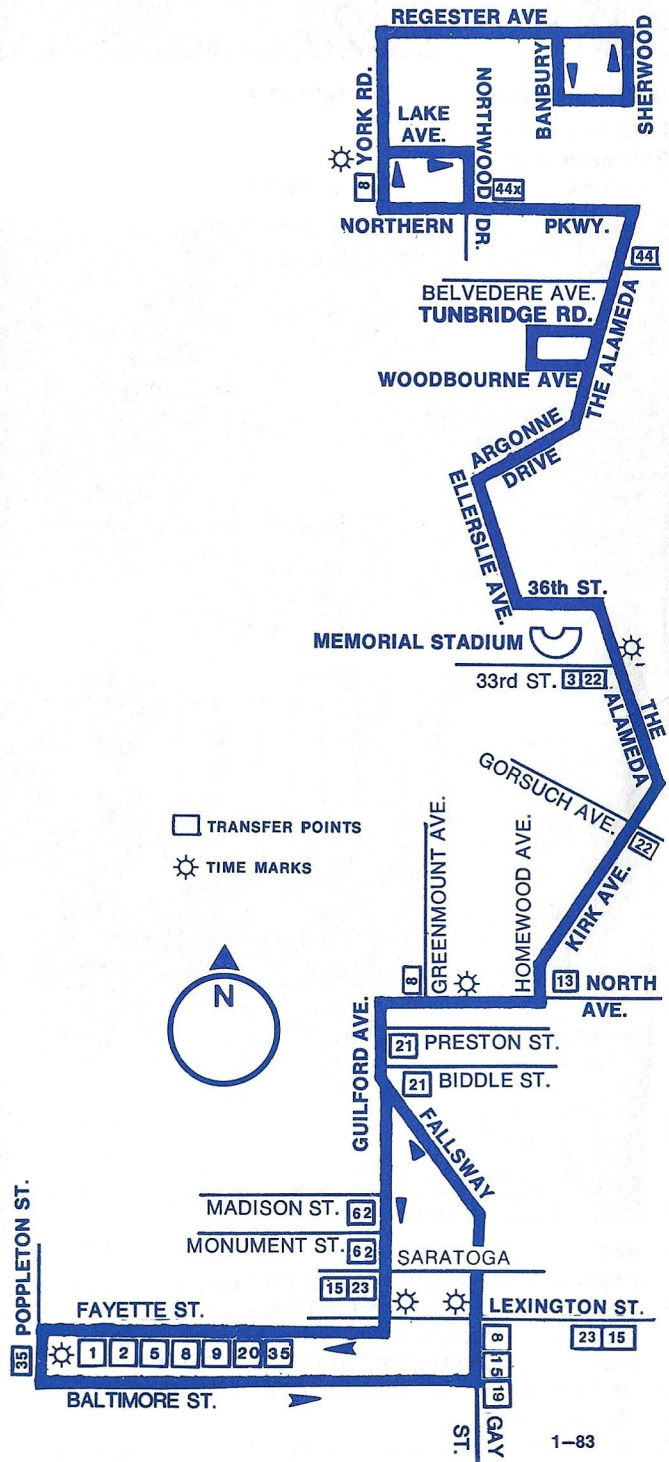

it's against the law!

How to use the time points: It would be impossible to list all the times the buses reach each stop where you can board, so, we've listed a number of time points which are shown on the map by a ☀. To know the time a bus will arrive at your stop, first determine where your stop is in relation to the timepoint shown on the map and the corresponding time shown on the schedule. If your stop is after a timepoint, add travel time, if your stop is located before the nearest timepoint, subtract travel time, then make a note of the time on this schedule as a convenience for your future reference.

## HOW TO TELL WHERE TO TRANSFER

At certain intersections on the map, you will see little squares with numbers in them, such as a 3 to show you where you can transfer. Basically transfers can be made to continue a trip in the same general direction. However, transfers cannot be used for round trips.
